The 2009 version of the MUTCD Manual contains the most widespread changes, additions, and deletions to sign designs. The goal of the FHWA is to make signs bigger, brighter, and more understandable to all drivers including America's aging population. Driver studies indicated a need for an emphasis on symbol signs, mixed upper and lower case copy on guide signs, as well as larger signs for ease of readability.

Did You Know?	We Can Help!
There are upgraded minimum retro-reflectivity requirements on all signs throughout the 2009 MUTCD. Also, it is now required to implement and maintain an assessment or management method to maintain traffic sign retroreflectivity. National Requirements for Maintaining Sign Retroreflectivity and Assessment /Management Methods for Maintaining Traffic Sign Retroreflectivity	We recommend 3M™ High Intensity Prismatic on all ground mounted signs for long life, durability and compliance of new minimum retro-reflectivity requirements. *Except school zones which requires fluorescent yellow green sheeting.* CPC's inventory sticker system makes inventory maintenance easy to manage with low cost, easy-to-see color coded dating stickers. Sign Dating Stickers
There are new signs in every section of the 2009 MUTCD, as well as, many signs and sizes that are no longer an option. View the Quick Guides for School Zone Sign Changes, Stop Sign/Plaque Changes, Warning Sign Changes, and Construction Work Zone Sign Changes.	CPC has a large selection of IN STOCK Compliant Regulatory, Warning, Traffic Signs and much more. View Product Guides: CPC 2015 Catalog, Construction Work Zone Products, School Zone Safety Products, and Recreational & Cultural Interest Products
The 2009 MUTCD requires that Street Name Signs be mixed upper and lower case copy with new size requirements based on roadway type and speed. Specific color combinations are also designated.	CPC has an Easy Order Checklist to assist you in choosing the right specifications for your sign based on roadway type. Also check out the MUTCD Street Name Sign Fact Sheet for a quick way to review the new recommended rules.
Breakaway sign supports are required on all roads open to public travel with speeds over 50 MPH. Break-A-Way Sign & Mailbox Supports	CPC offers a full line of U-Channel, Round and Square Posts, Hardware and Breakaway Sign Systems. Posts, Brackets & Hardware Product Guide
If the public travels on property that you own or manage, your traffic signs, pavement markings, and other traffic control devices are now required to conform to the MUTCD. Federal Rules Impact on Private Property	CPC customer service specialist can assist you in choosing appropriate sign types for all private properties such as shopping centers, office parks, residential developments, apartment complexes and more.
COMPLIANCE REQUIRED as signs are being replaced or refurbished because they are damaged, missing, or no longer serviceable for any reason.	CPC's low minumim order requirements keeps the task of replacing a few signs at a time cost effective.
