

Cost Effective Solutions for Increased Visibility

Brite-Max Single and Multi-View Post Reflectors are a simple, low cost, MUTCD approved solution to improve safety. Add visibility and increase driver awareness in all types of high risk, or high traffic volume areas and can also be used anywhere added visibility is needed.

- ◆ Dangerous Curves
- ◆ Divided Highways
- ◆ Exit and Entrance Ramps
- ◆ Intersections
- ◆ One Way & Wrong Way
- ◆ Parking Lots
- ◆ Parks and Recreation Areas
- ◆ Pedestrian Crossings
- ◆ Railroad Crossings
- ◆ Roundabouts
- ◆ Road Closures
- ◆ Road Construction
- ◆ School Zones

Aluminum Brite-Max Products are far superior to plastic competitive products.

Brite-Max Header Panels, Post, Guardrail & Barrier Mount Delineators also available.

The NEW Multi-View Post Reflector Design combined with the CPC Adjustable Bracket System offers superior visibility on dangerous curves.
