

# Don't be caught by a Storm unprepared.

## A Public Safety Message from CPC... before and after the storm, are you ready?

Weather is increasingly unpredictable with growing numbers of tornadoes, hurricanes, floods and lightning-induced fires wreaking havoc and destruction to everyone and everything in their path. When planning ahead for such events, it is imperative to include a recovery plan, as well as an emergency prep plan.

**Call the Customer Service and let us help you prepare and/or recover from this season's storms.**

*Competitive prices, huge inventory, great lead times and personal customer service.*

## Sign Replacement Requirements\*

### Getting Back to Normal...

By following the Federal Highway Administration's **MUTCD replacement requirements** for damaged or missing signs, you mitigate risk and ensure safety on the roadways in your jurisdiction. *See our recommendations in red to help you stay in compliance and maintain safer roadways.*

- ◆ **Regulatory Signs:** Damaged or missing regulatory signs (such as STOP, YIELD, ONE WAY, and DO NOT ENTER signs) **should be replaced or repaired within hours** of the agency having notice of them missing, down or damaged. *We recommend agencies STOCK extra Regulatory Signs at all times.*
- ◆ **Warning Signs:** Damaged or missing warning signs (such as BRIDGE OUT, WATER OVER ROAD, CURVE, SPEED ADVISORY and STOP AHEAD signs) **should be replaced or repaired within 3 working days** of the agency having notice of them missing, down or damaged. *We recommend agencies place an order for Warning Signs as the need arises utilizing the CPC Stock Program for quick delivery.*
- ◆ **Guide Signs:** (includes street name signs) are used for driver navigation—to help a driver to get to a particular destination. There are a variety of guide signs that display route designations, destinations, directions, distances, services, points of interest, and other geographical, recreational, and cultural information. Guide Signs **should be replaced within 7 working days** of notification to agency of missing or damage. Some may warrant faster replacement based on nature of the sign that needs replaced. *We recommend agencies place a custom order for Guide Signs as the need arises utilizing CPC's timely custom sign turn around and quick delivery.*
