

## Standard Metro Street Name Signs

A route symbol or a pictograph may be used on the left side of a street name sign.

18 inch Metro Street Name Signs are composed of mixed case letters at least 8 inches in height in Hwy Gothic Font.

Borders are optional, but if used, must conform to the colors allowed on the letters. Black letters/borders on a white background or white letters/borders on green, blue, or brown backgrounds.

24 inch Metro Street Name Signs are composed of mixed case letters at least 12 inches in height in Hwy Gothic Font.

We recommend using **3M™ High Intensity Prismatic** for **Ground Mounted Street Name Signs** and **3M™ Diamond Grade Cubed** for **Overhead Mounted Street Name Signs**

**Standard Metro Signs**  
.100 gauge aluminum  
**Ornamental Metro Signs**  
.080 gauge aluminum

*Metro signs are single faced as a standard, double faced signs available upon request.*

*Other substrates, bare or sheeted blanks, also available.*
